April 28, 1997

Mr. Steve Greenberg
President
Classic Sports Network
300 Park Avenue South
6th Floor
New York, NY 10010

Dear Steve:

I am in receipt of your letter dated April 18, 1997 in which you have requested license fee payments for our North Olmsted and Berea, OH systems during the period in which Cablevision had been "previewing" Classic Sports, along with numerous other cable services, at no charge to our customers.

As you know, a wired-competitor has recently commenced service in the above mentioned systems. One of Cablevision's initial response tactics was to provide our customers with a "free sampling" of new programming options that Cablevision offered for a defined period. This "free preview" (which extended from late October 1996 through April 15, 1997) included Classic Sports amongst approximately fifteen other cable services. During the preview, we were able to best evaluate and develop a strategy for moving forward, which, as you know, included officially launching Classic Sports in Expanded Basic effective April 15, 1997.

Although we acknowledge your contractual right to require payment during this initial "preview" period, in light of the circumstances detailed above and the support of the other services involved (not all of whom have reaped the benefit of remaining in Expanded Basic), we hope that you will reconsider your demands. Nonetheless, if you insist on requiring payment, we will, of course, promptly process your request.

Please let me know of your final decision.

Sincerely,

Thomas Montemagno
Program Manager
